

# Space Vehicle Dynamics And Control

**Author :**Bong Wie / **Category :**Science / **Total Pages :** 661 pages

 [Download Space Vehicle Dynamics And Control PDF](#)

**Summary :** Free space vehicle dynamics and control pdf download - space vehicle dynamics and control provides a solid foundation in dynamic modeling analysis and control of space vehicles more than 200 figures photographs and tables are featured in detailed sections covering the fundamentals of controlling orbital attitude and structural motions of space vehicles the textbook highlights a range of orbital maneuvering and control problems orbital transfer rendezvous and halo orbit determination and control rotational maneuvering and attitude control problems of space vehicles under the influence of reaction jet firings internal energy dissipation or momentum transfer via reaction wheels and control moment gyros are treated in detail the textbook also highlights the analysis and design of attitude control systems in the presence of structural flexibility and or propellant sloshing at the end of each chapter dr wie includes a helpful list of references for graduate students and working professionals studying spacecraft dynamics and control a bibliography of more than 350 additional references in the field of spacecraft guidance control and dynamics is also provided at the end of the book this text requires a thorough knowledge of vector and matrix algebra calculus ordinary differential equations engineering mechanics and linear system dynamics and control the first two chapters provide a summary of such necessary background material since some problems may require the use of software for the analysis control design and numerical simulation readers should have access to computational software i e matlab on a personal computer

**Publisher :** AIAA on 1998 / **ISBN :** 1563472619
