**Summary :** Free evidence-based practice in nursing healthcare pdf download - bernadette mazurek melnyk and ellen fineout-overholt are creators of the arcc advancing research and clinical practice through close collaboration model an innovative strategy for implementing and sustaining evidence-based practice in healthcare systems the arcc model is cited as an exemplar of education in evidence-based practice in the board on health care services and the institute of medicine s book health professions education a bridge to quality mcinyk and fineout-overholt s book should be required reading in all graduate programs their text has provided a blueprint for the future of nursing practice and a rigorously substantiated and clearly described means for clinicians educators and administrators to participate in improving quality of care janet d allan phd rn faan dean and professor university of maryland school of nursing evidence-based practice in nursing healthcare a guide to best practice has been instrumental in developing a culture of evidence-based practice at barnes-jewish hospital it is fundamental to our curriculum provided to all levels of staff from new graduate nurses to the highest levels of hospital leadership dr patricia potter rn phd faan dr gail rea rn phd cne dr karen balakas rn phd cne jennifer williams msn rn acns-bc elizabeth pratt msn rn acns-bc evidence equals excellence group at barnes-jewish hospital and barnes-jewish school of nursing at goldfarb evidence-based practice in nursing healthcare a guide to best practice is an exemplary text that spans the continuum of nursing evidence to support best practice utilizing this text with undergraduate rn to bsn and graduate nursing students it is the only text that demonstrates how to retrieve read and analyze evidence whether it is published as an individual study systematic review meta-analysis best practice guideline or outcomes management report students learn how to utilize multiple complex databases and websites as they move through each chapter and they experience dissemination of evidence through the development of presentations publications posters and grants this is truly a remarkable book that embraces evidence as the basis for nursing practice and patient-centered care and safety having used this text with more than 1000 students over the past five years i can honestly say that i have found no other text that facilitates learning and development of

clinical judgment that is grounded in valid reliable and applicable evidence this is a keeper  
alice e dupler jd aprn-bc  
clinical associate professor washington state university college of nursing  
i have used the book since i developed the evidence-based practice course for our college of nursing in fall 2007 it was the first course of its kind at indiana state university it has been well received and the preferred course for all nursing graduate students for completion of their final scholarly projects the text was essential in developing the course and provides the foundation and guidance that the students need to develop their evidence based practice projects the students love the text  
susan eley phd rn fnp-bc assistant professor director fnp program indiana state university
