

Human Genetic Biobanks In Asia

Author : Margaret Sleeboom-Faulkner / **Category :** Political Science / **Total Pages :** 224 pages

 [Download Human Genetic Biobanks In Asia PDF](#)

Summary : Free human genetic biobanks in asia pdf download - this volume investigates human genetic biobanking and its regulation in various asian countries and areas including japan mainland china taiwan hong kong india and indonesia it sheds light on how cultural socio-political and economic factors influence the set-up of bioethical regulation for human genetic biobanks and how bioethical sensitivities surrounding biobanks are handled apart from placing discourses of trust in an international perspective the comparative materials presented in this volume also put into perspective the concepts of genetic theft and exploitation and genetic wealth and trust this collection contains case studies of biobanking practices in societies with different needs and welfare levels and provides insights into government strategies towards genetic resources by examining bioethics as practised at home

Publisher : Routledge on 2008-11-19 / **ISBN :** 9781135784508
