🖫 **Download Intelligent Multimedia Processing With Soft Computing PDF**

Summary : Free intelligent multimedia processing with soft computing pdf download - soft computing represents a collection of techniques such as neural networks evolutionary computation fuzzy logic and probabilistic reasoning as - posed to conventional hard computing these techniques tolerate impre- sion and uncertainty similar to human beings in the recent years successful applications of these powerful methods have been published in many dis- plines in numerous journals conferences as well as the excellent books in this book series on studies in fuzziness and soft computing this volume is dedicated to recent novel applications of soft computing in multimedia processing the book is composed of 21 chapters written by experts in their respective fields addressing various important and timely problems in multimedia computing such as content analysis indexing and retrieval recognition and compression processing and filtering etc in the chapter authored by guan muneesawang lay amin and lee a radial basis function network with laplacian mixture model is employed to perform image and video retrieval d androutsos p androutsos plataniotis and venetsanopoulos investigate color image indexing and retrieval within a small-world framework wu and yap develop a framework of fuzzy relevance feedback to model the uncertainty of users subjective perception in image retrieval
